## School Therapy Dog

Our school has recently engaged the services of THERAPuppy. All dogs are Cavoodles and were born to work in schools. Each dog completes specialised School Dog training and complete recertification every twelve months.

School dogs have been proven to help students reach their potential by providing a way To calm and ground them.

A dog will begin to come to our school shortly. They will be attending the school only on certain days and will always be on a lead. The school dog is a first generation Cavoodle (King Charles Cavalier x Toy Poodle). Cavoodles are hypoallergenic meaning they are Great for people who may have sensitivities to dogs.

As part of our preparation, it is crucial to establish if we have any students who are afraid of or allergic to dogs. If your child is scared of or allergic to dogs, could you please send an email to the school [casula-p.school@det.nsw.edu.au](mailto:casula-p.school@det.nsw.edu.au) as soon as possible to let us know. We will then make contact with you in the coming weeks to discuss the arrangements of how your child may be included in sessions with the dog, if appropriate. Please see the link below which explains the THERAPuppy program:

I look forward to enrolling this new student at our school!

Yours sincerely

Megan Predl  
Principal (Rel)
